

HelpTech

Certified engineering consultancy **online**

Professional structural expert reports with a qualified
electronic signature. Fast, transparent, fully legally
valid.

OFFER FOR BUSINESS AND INSTITUTIONS

Why HelpTech?

Every year, construction companies, developers and property managers lose weeks obtaining technical opinions. The traditional model – searching for an expert, negotiating fees, waiting for the document – is costly, unpredictable and lacks standardisation.

HelpTech is the first platform in Poland connecting certified engineers with business clients in a fully digital model – with a guaranteed SLA, transparent pricing and documents ready for use in formal proceedings.

Express turnaround

Standard mode: 5–10 business days. Express mode: 6–12 hours. Guaranteed by an SLA agreement.

Qualified PAdES signature

Every document carries a qualified electronic signature – full legal validity, ready for courts and authorities.

Verified experts

Engineers with professional licences, chamber membership and documented experience.

Transparent pricing

Automatic quoting, no hidden costs. Online payment or invoices with deferred terms for subscribers.

Specialisations

Architecture and building structures · Roads and railways · Geotechnics and bridges · Construction law · Hydraulic engineering (soon) · Surveying (soon).
